- Practice injecting into specific facial areas (e.g., forehead, crow's feet, and glabella).

Areas of Study for Anti-Wrinkle Injections

COURSE STRUCTURE

DAY 2

Morning: Theoretical Learning

1. **Introduction to Dermal Fillers:** Overview of different types of dermal fillers, their uses, and how they work to enhance facial aesthetics.
2. **Anatomy and Physiology:** Understanding facial anatomy, including the skin, muscles, and underlying structures, to safely and effectively administer fillers.
3. **Injection Techniques:** Training on various injection methods and how to achieve natural-looking results.
4. **Patient Assessment:** Guidance on how to assess patients, understand their needs, and create tailored treatment plans.
5. **Safety and Complications:** Education on potential risks, how to avoid complications, and emergency protocols for dealing with adverse reactions.
6. **Hands-on Practice:** Supervised practical sessions where participants practice on models to develop confidence and competence in administering dermal fillers.
7. **Ethical and Legal Considerations:** Overview of legal responsibilities, consent, and ethical issues related to cosmetic treatments.
8. **Essential insights for Business development.**

COURSE STRUCTURE

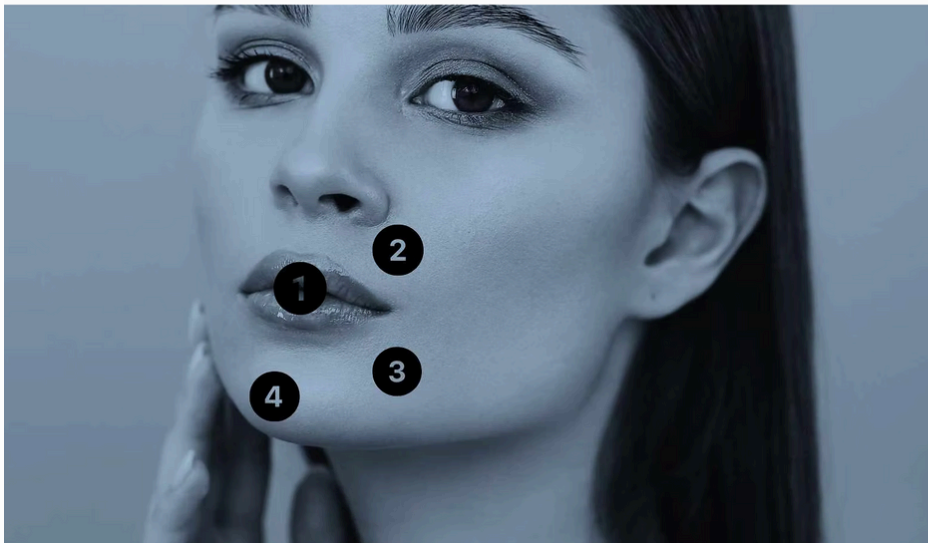

DAY 2

Afternoon: Practical Training

- Hands-on experience with live models under expert supervision.
- Apply dermal fillers to different facial areas (lips, nasolabial folds, marionette lines and chin) ensuring mastery of technique.

Areas of Study for Dermal Fillers

1| Lip Fillers

Lip augmentation, correct asymmetry and enhance hydration

2| Nasolabial Folds

Used to fill in and plump up the creases that we see running down the nose to the corner of the mouth called smile lines.

3| Marionette Lines

They work by providing extra fullness to the area where wrinkles are apparent.

4| Chin Fillers

Enhance its shape, definition, and overall appearance

COURSE STRUCTURE

Models for Practical Training

- **Model Options:** Bring your own model or let us arrange one for you.
- **Model Pricing:** Models receive treatments at significantly reduced prices: **£50 for 1ml of dermal filler**. If the model requires more than 1ml of filler, they will need to pay £50 for each additional ml. **With 1ml, we can often treat multiple areas (e.g., 0.5ml for lips and 0.5ml for nasolabial folds).**
- **Model Pricing:** Models receive treatments at significantly reduced prices: **£100 for 3 areas anti-wrinkle injections.**

Upon successful completion of the Anti-Wrinkle Injections Foundation, Dermal Fillers Foundation, and Hyperhidrosis Courses, you will:

- Acquire a thorough understanding of anti-wrinkle injections, including their composition and effective communication techniques to educate your patients.
- Confidently assess and identify suitable candidates for dermal filler treatments, ensuring optimal patient selection.
- Gain in-depth knowledge of various treatment indications, as well as potential side effects and complications, to practice safely and effectively.
- Perfect the art of conducting professional consultations, personalised to meet each patient's unique needs and expectations.
- Develop the technical skills to administer anti-wrinkle injections and dermal fillers with precision.
- Provide comprehensive aftercare guidance to patients, enhancing treatment outcomes and overall satisfaction.
- Gain the essential insights needed to develop their own business, equipping them with the knowledge and strategies crucial for its success.

This integrated training ensures you are fully equipped to deliver safe, professional, and high-quality aesthetic treatments.
